

Scholarship application form

Application for partial scholarship for education at the Las Cruces Academy (LCA) for the academic year _____ . Both current and prospective students are eligible for consideration.

Please tell us if you wish to be considered for a scholarship. All of our scholarships are need-based, to support students whose parents or guardians would face financial hardship in paying the tuition while they are exercising fiscal prudence overall.

We wish to be fair to all students. We allocate our limited funds for scholarship to students who have significant degrees of financial need, benefit to themselves, and benefit to the LCA. High net income or a record of luxury expenditures is a disqualifier. Consequently, to make diligent judgments in awarding scholarships, we need a reasonable amount of information about your family finances. We keep this in complete confidence. No one other than the Head of School and several vetted advisors receives the information. It is kept in secure fashion, which includes adherence to the General Data Protection Regulations of the European Union that are now applied internationally. We do not discuss your information with outside parties, particularly with other LCA families.
